

Senator Joseph S. Fortis
Senate of Representatives
Washington 25, D. C.

Dear Mr. Fortis:

In response to your 30 June inquiry concerning statements made by Leo Taxidem in his 26 June letter to you, please be advised that Mr. Taxidem has been involved in rather extensive correspondence with this Agency and with the Air Force since early 1958 on the subject of UFO's.

Mr. Taxidem believed that the Central Intelligence Agency is withholding information from him which would prove that this Agency is, to quote his letter to you "... solely responsible for creating the Flying Saucer Farce. . . ." He believes further that this information is contained in the Scientific Advisory Panel Report on UFO's, dated 17 January 1953, (Secret). Mr. Taxidem was supplied with the declassified and "Official" versions of this report, but this apparently has only served to convince him that he is being withheld information which would prove his claim. This is in spite of the fact that he was informed as long ago as 20 May 1951 that "The complete formal report of the Panel has not been fully declassified for security reasons. The Formal Report is not available to the general public for distribution or reproduction," and "For your information, the classified portion of the Formal Report and the unofficial supplement did not deal specifically with UFO's but on other matters of intelligence significance which affect the national security." In addition, Major Tucker went to great lengths, in this four page letter, outlining to Mr. Taxidem all of the information currently available on the subject of UFO's interpreting the Formal Report of the Scientific Advisory Panel, commenting on erroneous or

Plotter from Major Lawrence J. Tucker, U.S. Air Force Executive Officer, Public Information Division, Office of Information Services

Honorable Joseph S. Fortas
Senate of Representatives
Washington 25, D. C.

Dear Mr. Fortas:

In response to your 30 June inquiry concerning statements made by Leon Davidon in his 26 June letter to you, please be advised that Mr. Davidon has been involved in rather extensive correspondence with this Agency and with the Air Force since early 1956 on the matter of UFO's.

Mr. Davidon believes that the Central Intelligence Agency is withholding information from him which would prove that this agency is, to quote his letter to you "... solely responsible for creating the Flying Saucer rumor . . ." He believes further that this information is contained in the Scientific Advisory Panel Report on UFO's, dated 17 January 1953, (Secret). Mr. Davidon was supplied with the declassified and "official" version of this report, but this apparently has only served to convince him that he is being withheld information which would prove his claim. This is in spite of the fact that he was informed as long ago as 20 May 1954 that "The classified formal report of the Panel has not been fully declassified for security reasons. The formal report is not available to the general public for distribution or reproduction," and "For your information, the classified portion of the formal report and the unclassified supplement did not deal specifically with UFO's but on other factors of intelligence significance which affect the national security." In addition, Major Factor went to great lengths, in this four page letter, outlining to Mr. Davidon all of the information currently available on the subject of UFO's interpreting the formal Report of the Scientific Advisory Panel, concerning no errors or

Letter from Major Lawrence A. Tarter, U.S. Air Force Executive Officer, Public Information Division, Office of Information Services

misleading statements on this report in Captain Farnolt's book, "The Report of Unidentified Flying Objects"; and explaining why a portion of the report was classified. A copy of this letter is appended for your information.

In answer, Mr. Fairlie's belief that this Agency is involved in the "Flying Saucer-Saucer" and is using this as a tool in psychological warfare is entirely unfounded. His indication that CIA is misguiding persons in leading them to believe in Flying Saucers is also entirely unfounded. This Agency in conjunction with the Air Force investigated, in 1953, the threat to national security of the then prevalent Flying Saucer rumors. Since that time, CIA has not participated in any Flying Saucer activities and has referred all correspondence to the U. S. Air Force.

Very truly yours,

Lawrence R. Burtcha
General Counsel

OK

<u>DATE OF LETTER</u>	<u>FROM</u>	<u>TO</u>	<u>SUBSTANCE</u>
11 March 1958	Davidson	DCI	Request for the Secret Panel Report.
14 April 1958	Exec/CIA	Davidson	Davidson's letter referred to Air Force.
27 April 1958	Davidson	DCI	Desires Secret report for public dissemination. (Air Force has action.)
15 May 1958	Davidson	Exec/CIA	Letter forwarded by <u>Chapin</u> to Air Force for reply with acknowledgment letter from <u>Chapin</u> to Davidson.
20 May 1958	Department of Air Force	Davidson	Answer to Davidson's letters of 27 April to Air Force and CIA. Attempts to clarify the purpose of withholding certain information for security reasons.
3 July 1958	Davidson	DCI	Inquires whether CIA is carrying out Sociological Warfare in creating UFO stories.
26 June 1958	Davidson	Congressman Karrh	Accuses CIA of creating UFO furor and misleading persons such as Major Keyhue.

NOTE: In addition, we have on file letters from Mr. Davidson to Members of the 1953 Panel requesting in essence their supporting him in obtaining information which would implicate CIA or the OCB in a "1964 type of thought control developing in America."
